How to get membership for free on prodigy

I was testing out ways on how to get free membership. Cause I wanted to climb Mira's tower, Level up a bit faster, etc. And I was looking at both parent and teacher accounts. (I have and control both). And I saw something on the teacher side. It said that if I help a teacher sign up, create a classroom, and play for a bit, I would get a free 3-month membership for only ONE player in the classroom.I was interested in that And I wanted to try it out. I created a fake email and sent a signup link (From my 1st teacher account I use) and made the fake email sign up as a teacher.I then made a fake student. It's rather easy as well. (Note: I used my phone at some of these parts), and after that, made the fake student play through the tutorial. (Don't know if it matters, but I played in Firefly forest).After a while (10 mins or so?) I checked back into my real classroom which is the main one I use and went into the share prodigy side of the classroom, and needless to say, IT WORKED! I had a free 3-month membership for ONLY 1 classmate (Only one in class so I chose myself).If you want more than just one 3 month membership for a classmate repeat the steps again. 1. use the main classroom and send a signup link. 2. Make fake or use old email 3. Make fake email register as a teacher. 4. make a fake classmate and add him/her to the fake teacher account click claim membership.Those are all the steps I used to get free membership. I hope this helps!(BTW) here is a pic, sorry about the bad resolution!) Unlock all game features and add-ons without spending any money by following our ultimate guide to getting a free membership on Prodigy. Learn how to earn in-game currency from quests, battles, referrals, seasonal events, and vendor refresh. Implement the tips and tricks suggested to earn currency faster and enjoy all the benefits of a Prodigy membership for free. Wondering how to get free Membership and access to more in-game rewards and tools on Prodigy? If yes, then we have got you covered. Prodigy is a platform that makes learning math and English skills fun while gaming. However, you will need a membership to access the perks in-game content and rewards. This might make you wonder if there are any ways to get the membership and its benefits for free. In this guide, we will show you how to get a membership on any account you want on the platform for a while. Disclaimer: Before going any further, we would like to specify that this guide containing the workaround is for educational purposes only. And that we do not support any kind of hacks or extensions related to it. We firmly believe that you should get the membership from Prodigy itself. Free membership on Prodigy can only be obtained through referrals while using the teacher's account and inviting other teachers. After someone joins with the invite, the one who sends the link can claim free membership. It can be then assigned to any grade student on the platform. One of the workaround you can try involves creating multiple teacher accounts on the platform. After which you can send the invite with one and accept it with another while creating the account subsequently. However, there are some things that you will have to keep in mind before going through the process. With the newly created teacher account, you will have to assign a class to your student account and play the game. Once you have played enough game on Prodigy with the student account, you will be able to claim a free membership. This will be on the account through which you send the invite. You can then assign the membership to the grade and your student account accordingly. After enjoying the membership for the month, you can purchase the membership on the platform to continue the fun learning experience. Warning: There are extensions and hacks available that may help you get the membership for free. However, we would recommend not to use those as not only are they illegal but are often filled with viruses which in turn may affect your device.
