Click Here

To ensure a consistent and high-quality experience, Google individually certifies and maintains a list of models that you can use with ChromeOS Flex. Model status Certified—Models are expected to work with ChromeOS Flex. Minor issues expected—Models are likely to support at least basic functionality, but are still being worked on by our team. You might run into minor issues. Major issues expected—Models are known to have major issues, such as boot issues, and are not currently recommended for use with ChromeOS Flex. Future releases will improve support for these models. Decertified—Models recently reached their end of support date. Support ends on the 31st December of the given year.
