Based on Sun Wukong, Goku is known in Japan as Son Goku and in the West as Monkey King. In the classic Chinese fiction "Journey to the West" which dates back to the 16th century, he is the main protagonist. He draws inspiration from Hong Kong martial arts films such as Jackie Chan and Bruce Lee. When Goku made his first appearance in the manga series Dragon Ball, it was in the first chapter of Bulma and Son Goku, first published in Japan in December 1984. As an abnormal Yung monkey-tailed boy who rehearses martial arts and possesses superhuman strength, Goku is introduced in the first episode. He meets Bulma and joins her to find the magical seven Dragon Balls. Each can grant the user a single wish if they are used correctly. Along the way, he meets new people who encourage him to continue his quest to become a more formidable fighter. In the course of his development, Goku rises to become the Earth's most powerful warrior, fighting a wide range of villains with the assistance of his friends and family while also gaining new allies in the process. Where was Son Goku Born?On planet Vegeta, Kakarot is born as a member of the Saiyan race and given the name Kakarot. He is abducted by Frieza and brought to Earth as an infant before his homeworld is destroyed by the evil villain Frieza. As soon as he arrives on Earth, the infant is discovered by Son Gohan, who adopts the boy and gives him the name Goku in honour of his grandfather. Initially, Goku is filled with violence and aggression due to his Saiyan origins. Nevertheless, after falling into a ravine and hitting his head, causing him to lose memory, Goku transforms into a cheerful and carefree young man. Grandpa Gohan's kindness and teachings positively impact Goku, who later names his first son Gohan after him in honour of his grandfather.What Is The History of Son Goku On Earth?As we mentioned above, Goku was transported from Vegeta to Earth as a child to wipe off its people. Goku has become Earth's greatest guardian with his grandpa's guidance. Goku marries and produces a son, Son Gohan, named after his wife's late grandfather. Son Gohan has grown up, gained a love for martial arts, and adopted Son Goku's lifestyle. Piccolo and Vegeta are new Goku enemies. Vegeta is a vicious and cruel cold-blooded murderer. He was obsessed with beating Son Goku and constantly attacked from behind in fair fights, knowing Son Goku would win. Facts From The Future of Son Goku!In the future, Vegeta undergoes a shift that makes him less wicked; at the time, he merely accepts that he has learned more. Piccolo is on Earth to destroy life. Vegeta tried to knock down Son Goku, but Piccolo revealed his feelings. Son Goku, a clever and well-intentioned young man, approached Piccolo to become friends so they could work together. Gohan, Goku's son, became a warrior when his strength level rose, but he opted to become a teacher after getting married>About Son Goku Kids!Gohan's daughter was slain in battle, so he fought again. Gohan returned to revenge his daughter's death. Goten would become a warrior like his father. Goten sympathized with her and supported her views, but he finally gave up. Vegeta sends Goten to another realm to pursue martial arts so he wouldn't quit like Gohan and Trunks. Goten returned to crucified battles. Vegeta's elder and bigger son, Trunks, has always been stronger than Gohan. Trunks wanted to quit when he was a teenager. Vegeta brought him to another universe, where he realized he needed always be a warrior and battle. All the protagonists and villains in this story are only half human. They have latent skills that strengthen them, and their martial arts are unique. The film illustrates both good and evil and each character's battle for dignity, love, and success. You can experience most of Goku's stories by just playing the game from our website and having fun with the mighty power of the super saiin Goku, his family, and friends as they try to save Earth from different enemies and villains! DBZ Games /Games /Fighting / Dragon Ball Z Super Butōden 3 is a classic fighting game based on Buu Saga from Dragon Ball Z TV show. It's the last part of trilogy released on Super Nintendo which also includes Dragon Ball Z Super Butōden and Dragon Ball Z Super Butōden 2. Unlike previous games, this time there is no Story Mode. Instead, you can play in the Tournament Mode in which you'll fight against all characters available in the game. The other game modes are quite standard for this series. In Arcade Mode (1p vs Com), you can fight against the computer AI. Choose your favorite character, an opponent, a map, a few gameplay parameters, and test your skills. The best fun, of course, is in Two Player Mode (1p vs 2p). Invite your friend to play together and check outwho will be a better fighter (for instructions on how to set the keys for the second player, check the end of this description). The last one is Spectator Mode, in which you can watch the fight of two characters controlled by computer AI. The third Butōden has more dynamic gameplay thanks to faster energy charging than in the previous two parts. You can choose from nine playable characters such as SSJ Goku, SSJ Goten, Majin Buu, SSJ Trunks (Kid), Majin Vegeta, SSJ Gohan, Supreme Kai, Dabura, and Android 18. Additionally, you can get access to the bonus character - Future Trunks. To add him to the game's roster press following combination during the game's intro (exactly when Vegeta fades into Goku): S X A Z D C. How to play two player mode: Hover over the game screen and click the gamepad icon. Set keys for player two and play with a friend. Dragon Ball Super Devolution is a modified version of Dragon Ball Z Devolution 1.0.1 featuring characters, stages, and battles known from Dragon Ball Super series. If you've played Dragon Ball Z Devolution 1.0.1 before, you're familiar with the content unlocking system. At the start, Training is the only available mode and introduces the combat system basics. This time our mentor is Whis instead Master Roshi. Once you learn the basics, you'll unlock the Story mode which begins from Goku's duel with Beerus on the planet Kai. After the first win, you'll also unlock the Versus mode in which you can create custom battles including a duel with the second player on one keyboard. Later in the Story mode, you'll unlock new characters and stages for Versus mode. Gameplay looks exactly like in Devolution 1.0.1 and each following version. You can move in all directions () including dashes (double tap one of the directional keys), attack your opponents from a distance or in melee range (X) depending on a distance between the characters, and block opponents' attacks (C). While blocking, you also charge an energy needed to perform powerful attacks like Kamehameha (press and hold A), as well as transformations such as Super Saiyan. However, the block can be broken (dash + attack key). If you want to win observe your opponent, avoid attacks and use energy properly in right moments. If you like the game, you can also try the newest version of original Dragon Ball Z Devolution which at the moment also features characters and story from Dragon Ball Super series including events from the Universe Survival Saga. The game is regularly updated, so you can discover something new every time you play. More information on the game also can be found on the official website. A new character is introduced: Captain Ginyu, the more loyal henchman of Frieza. The great novelty of this new game is in the scenario, which offers 2 separate story modes: Story 1 resumes the adventures of Goku, i.e. the entire Dragon Ball period. Story 2 follows the adventures of Frieza, that's to say the first chapters of DBZ. Choose your favorite character among 32 available, then challenge the computer or a friend in thrilling fights. It's time to fight with the iconic Nintendo characters, the most powerful warriors from anime universes, and heroes of games from Sega, Capcom, and Bandai. Developed by McLeod Gaming, it's a continuation of the famous Super Smash Flash and one of the largest Flash games ever made. Join the fight in Super Smash Flash 2 and show your skills in many arenas and game modes, where you'll meet a huge number of familiar opponents! Game Modes The game includes many exciting game modes for both singleplayer and multiplayer experiences. In the Solo section, you'll find challenges designed for one player. In the Classic mode, you'll fight with various opponents one by one. Every next opponent is getting harder, so don't be surprised! Events are custom scenarios in which you'll find various challenges often referring to Nintendo games. A stadium is a place where you can test your skills in various competitions. If you need some practice, in the Solo section you'll also find an extensive Training mode in which you can learn the moves of all characters. The Group section includes game modes in which you can play both alone and with up to 3 friends on one PC. In addition to the classic battles, you'll find here many exciting options or take part in fun competitions and play a great football or basketball match. Gameplay The gameplay in Super Smash Flash 2 is very similar to the official Super Smash Bros. games. It's quite simple, but it may take a while to master all controls and mechanics as it isn't a typical fighting game. The character's health bar has been replaced by a damage percentage counter which increases its value when damage is taken. The more percentages, the easier it's to knock out a character out of the stage, and that's the main goal of every match. Each character can perform deadly combos that you'll discover by yourself during the game. From time to time you'll notice new items that you can pick up and gain an edge in the battle. Use them wisely because they can also work against you! Your hero can move in all directions using W S A D (including a double jump W W), attack in melee range (O) and from a distance (P), block attacks (L), and finally grab and throw the opponents (U). Note that you can set up your key bindings for up to 4 players in the game's options. Characters Goku appears in the game as one of several anime representatives. In addition to our Saiyan, you can also play as Naruto, Ichigo, or Luffy. Next to them is a whole army of Nintendo characters such as Pikachu from Pokemon, Link from The Legend of Zelda, Mario, Luigi, Peach, Bowser, Wario, and even Donkey Kong. There are also some characters from Sega, Capcom, and Bandai: Sonic, Tail, Mega-Man, and Pac-Man. By choosing from 37 heroes, you'll find here your favorite ones. During the fight, support characters may also come to help you gain an advantage. The game also includes few hidden playable characters which you can unlock by beating different game modes. How to play online? You can also play with other players from around the world. All you need is to create an account here and then log in to the in-game Online Lobby. What's next? The game is continuously updated. You can expect new characters, stages, and game modes in the future. You can also download the latest version of Super Smash Flash 2 in our Download section. If you want to learn more about characters, abilities, or special items, check out Super Smash Flash 2 Fandom Page. DBZ Games /Games /Adventure / One of the most original games from the Dragon Ball Z universe that you can find on our website. Actually, it's a hack (modification) of a very popular game from Game Boy Advance, Pokemon Fire Red. This mod was created by Z-Max, the big fan of Dragon Ball Z, who was not the first to undertake such a difficult effort but was the first to complete this kind of modification. A great adventure awaits you in this amazing world! If you know games from the Pokemon series, you know what to expect. This time you collect a team of powerful fighters. You can train them by fighting with opponents and other "trainers", which you'll encounter on your way. A total of 165 warriors are waiting to join your team and help you in the fight with your enemies. You'll meet here Goku, Vegeta, and Gohan - also in the SuperSaiyan God form -- but also Broly, Bear Thief, Taopaipa, Drum, and other characters rarely seen in the Dragon Ball games at all. You can create a team of your dreams and lead your warriors to the victory! The gameplay is exactly the same as in the Pokémon games. As a "Trainer", you'll travel the world in search of new fighters for your team. Of course, you can also look for all 7 Dragon Balls and summon Shenron to fulfill your wish. What you'll do in the game depends only on you. Remember to talk to the NPCs, because you can often get useful information from them, including the location of rare warriors. Pay attention to every detail and become the best trainer! You don't have to start the game from the beginning if you've played it before. Hover over the game screen and use the icons to save (down arrow) or load (up arrow) your progress. Don't use the in-game save system, it won't work. If you want, you can also change key bindings (keyboard icon). Updated to the latest v7 version.
