Travelers adore KAYAK, with a staggering 41 million searches in just 7 days on the site. Users can compare prices across multiple travel sites with a single search, saving up to 23% or more. The platform allows users to track prices and create price alerts for when fares drop. Travelers can also bundle their flights and hotels to save even more.

Sheremetyevo International Airport (SVO), located in Moscow, is Russia's busiest airport. With plenty of amenities available, passengers can unwind during a layover by visiting one of the sleep lounges or dining at various restaurants, bars, food stores, and cafes serving both Russian and Western cuisine. Visitors to Russia can rent cars from several major rental companies, including Europcar, Rentmotors, Avis, and Budget. Drivers must adhere to local traffic rules, such as wearing seatbelts and driving on the right side of the road. KAYAK is a travel search engine that aggregates prices from various sources to provide users with the best options for flights from the United States to Russia. The platform's Price Forecast tool uses historical data to help travelers determine whether prices are likely to change within 7 days, ensuring they book at the right time. Travelers can also explore Hacker Fares, which allow them to combine one-way tickets to save money over traditional round-trip tickets. Flexible dates enable users to see all available options when flying from the United States to Russia up to 3 days before or after their preferred travel dates. To find the latest flight deals, users simply need to enter their preferred departure airport and travel dates into the search form above. Given text here John F. Kennedy Airport, Los Angeles Airport and San Francisco Airport are stopover destinations for one or two flights with layovers in Istanbul, Frankfurt or Paris. If you want to travel cheaply to Russia consider flying KLM from Sheremetyevo International Airport instead of Saint Petersburg Airport. All KLM flights have a transfer or two before reaching SVO. You can exchange currency at SVO and LED airports. Both airports offer buses and trains to the city centers with buses being cheaper. United States citizens must show their passport and visa on entry to Russia. The passport should be valid six months beyond departure date. They also need two blank pages for exit and entry stamps. Flights to Moscow are available from LAX, MIA, EWR and New York. In Moscow you can shop at airports such as Sheremetyevo and Domodedovo which offer a range of fashion to souvenirs. Some popular shops include Red Machine, Yarmarka and Swarovski at SVO and Natura Siberica, Consul and Frey Wille at DME. For food options consider Kolbasny Tsekh and Mama Russia at SVO and Uzbekchka and Edim Letim at DME. There are play areas for children at airports such as SVO's Terminal D with a mother-and-child room also available. Domodedovo has two play areas. The airport is connected to downtown Moscow by Aeroexpress. Buses, shuttles and taxis are also available. In the US you can fly from LAX or Miami to DME with layovers in different airports. Turkish Airlines flights have layovers in Istanbul, Bodrum and Antalya while others like United and Emirates have layovers in different cities such as Tel Aviv, London and Amsterdam. SVO airport offers accessible facilities for passengers with reduced mobility and provides restrooms throughout its terminals. Disabled travelers can use the Saturn Lounge in Terminal D or Sirius Lounge for flights from Terminals D, E, and F. Art Lounge is available near Gate 23 on the Second Floor of Terminal A, while Fountain Lounge and Top Lounge are accessible through membership programs. Prokofiev Premier and Tchaikovsky Lounge also admit travelers through membership programs. There are four major airports in Moscow: Vnukovo, Sheremetyevo, Zhukovsky, and Domodedovo. The nearest airport to the city center is Vnukovo, followed by Sheremetyevo Airport. KAYAK is a travel search engine that offers flight price forecasts and allows users to combine one-way tickets for cheaper options. Users can find affordable flights to Moscow by searching on KAYAK's website or mobile app. The tool also displays prices and options for flexible dates, allowing travelers to choose their preferred departure airport and travel dates into the search form above to unlock the latest deals. For those landing at Sheremetyevo International Airport, the Novotel Moscow Sheremetyevo Airport Hotel is a convenient option within walking distance of the airport. Domodedovo and Sheremetyevo Airports: A Guide to Transitions and Amenities For those traveling through Domodedovo International Airport, the Domodedovo AirHotel is a convenient option just half a mile away, offering free transfers to and from the airport. To reach Sheremetyevo International Airport from Domodedovo, passengers can take a combination of the Aeroexpress train and Moscow Metro, with an available "Between Airports" ticket for purchase at the Aeroexpress office. At Sheremetyevo, a visit to the Aero-beauty hair salon or History Museum can be a pleasant way to spend time before departing. Moscow Vnukovo International Airport has two terminals, A and D, connected by walkways. Terminal A handles most international flights, while Terminal D primarily serves flights from North Caucasus. Upon arrival at Domodedovo, passengers can utilize the airport's shower facilities in the Left Wing of the International Arrivals Area to refresh before departure. For those without luggage, storage lockers are available throughout the International Arrivals Area and on the Ground Floor of Domestic Arrivals. Gadget users can charge their devices using stand-alone charging stations in every waiting lounge or rent battery chargers from the Left Luggage room. Sheremetyevo Airport is completely smoke-free within its terminals, but designated smoking pavilions are available outside at each entrance.
