After the initial installation, it is recommended to close and reopen the browser so that it works correctly in all open tabs. There are two ways to start dictation: 1) just place your mouse pointer in the text field, then right-click and select "Start Recording" from the pop-up menu, or 2) right-click on the extension's button. from the address bar. VoiceIn runs quietly in the background and is always on. The default recognition language is English-US. Iolanguage go to app options page: chrome-extension://pjnefjmapgdjfhkpljcbppicelgko/askforpermissions.html First time - you need to grant microphone permission to the extension. ** Please note that the app is currently in beta. ** For dictation on Facebook, Stack Overflow, and some other specific sites, you may need to manually enter a space (using the keyboard) before dictating.
