A spotlight on whats inspiring, whats happening and whats new at Kenworth. News Skip to main content ADAS package options from Kenworth include the latest version of the Bendix Fusion system, TPMS, Lane Keeping Assist with Torque Assisted Steering and DigitalVision MirrorsKenworth recently announced three packages of Advanced Driver Assistance System (ADAS) options and Bendix features available for Kenworth T680s. Kenworth will now offer three ADAS packages for the T680: ADAS, ADAS PRO, and ADAS PREMIER.All ADAS packages include the latest version of the Bendix Fusion system, which offers updated Adaptive Cruise Control (ACC) with ACC Stop and Auto Go, a new Pedestrian Autonomous Emergency Braking (PAEB) feature, and High Beam Assist; all supported by a new forward-looking camera. The new High Beam Assist feature automatically deactivates high beams based on conditions. Along with these new features, the Bendix Fusion system includes previously available technologies such as Autonomous Emergency Braking (AEB), Multi-Lane Autonomous Emergency Braking, Highway Departure Braking (HDB), and Stationary Vehicle Braking (SVB), Lane Departure Warning, and Bendix Blindspotter Side Object Detection. In addition to the Bendix Fusion system, all ADAS packages include Tire Pressure Monitoring, which provides real-time information about tire health and can alert drivers to potential issues. ADAS PRO and ADAS PREMIER include Lane Keeping Assist, which helps to keep the truck and trailer in its lane; this includes Torque Assisted Steering, which helps to improve the driving experience by reducing the effort needed to turn the steering wheel.As part of the new ADAS options for the T680, the following ADAS features are included in each package:ADASBendix FusionPredictive Cruise ControlBendix Blindspotter Side Object DetectionTire Pressure Monitoring SystemADAS PROAll features included in ADAS plus Lane Keeping Assist with Torque Assisted SteeringADAS PREMIERAll features included in ADAS PRO, plus Kenworths DigitalVision MirrorsKenworth DigitalVision Mirrors, part of the ADAS Premier packageDriver assistance systems contribute in helping to reduce driver fatigue and enhancing the ease of operating commercial trucks," said Kevin Haygood, Kenworth assistant general manager for sales and marketing. "These new ADAS offerings will give our T680 customers more options to select features that support safe driving practices and also enhance the overall driving experience. For more information regarding Kenworths latest ADAS offerings, visit the Kenworth Driver Assistance Technologies web page - T680 | Kenworth.Kenworth Truck Company, founded in 1923, specializes in the design and manufacture of The Worlds Best heavy- and medium-duty trucks. As a leader in the development of advanced diesel powertrains, zero emissions vehicles, connected truck technologies and autonomous driving systems, Kenworth is creating transportation solutions to drive a better world. Kenworths Internet home page is at www.kenworth.com. Kenworth is a PACCAR company.Advanced driver assistance technologies complement safe driving practices. No commercial vehicle safety technology, including Bendix safety technologies, replaces a skilled, alert driver exercising safe driving techniques and proactive, comprehensive driving training. Responsibility for the safe operation of the vehicle remains with the driver at all times. Every driver should carefully review the Operators Manual and be trained by the fleet or vehicle owner on the proper operation and limitations of the ADAS system during operation.
